ABOUT OUR COMPANY

Softsasi began as a bold idea shared by a few dreamers who believed technology could do more than power machines. It could power people, businesses, and entire communities. From that vision, we built a company driven by innovation, creativity, and real-world impact.

What We Do Best

- ✓ We build **ERP systems for SMEs** in Bangladesh
- ✓ We create **e-commerce stores** in **2 days**
- ✓ We develop **Unreal Engine multiplayer games**
- ✓ We build **AI automation tools** for businesses

Every project we take on starts with a challenge and ends with a practical, scalable, and future-ready solution. From enterprise management systems and AI-powered tools to immersive games and secure digital platforms, our work is built with precision and purpose.

Our team is young, passionate, and relentlessly driven. We have represented Bangladesh in global competitions, built impactful products, and delivered successful solutions for clients across industries.

From Bangladesh to the world, Softsasi continues to grow with curiosity as our guide and innovation as our direction.

**We are not just building software.
We are building the future.**

WELCOME MESSAGE

Four years ago Softsasi began as an idea that lived in conversations, notebooks, and imagination. I and Izaz started with curiosity more than resources and with dreams larger than our surroundings. What we have now is the result of countless risks, experiments, and moments when we chose to keep going even when nothing was certain.

Softsasi has never been just a company. It has been a place where bold ideas are allowed to breathe, where young minds find a space to create, and where technology becomes a tool for real change.

On our fourth anniversary I feel grateful. Every client who trusted us, every teammate who gave their energy, and every supporter who believed in our vision has shaped the Softsasi you see today.

The journey ahead is wider than anything behind us. We will continue exploring, building, and trying ideas that seem impossible at first. We look forward to building impactful solutions together.

— Md. Shakil Anower Samrat
Chief Executive Officer, Softsasi

MESSAGE FROM MANAGING DIRECTOR

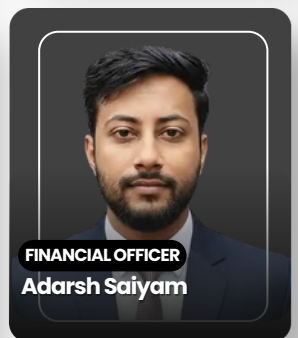

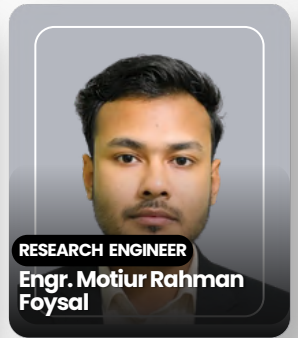

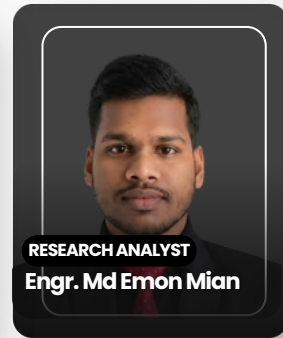

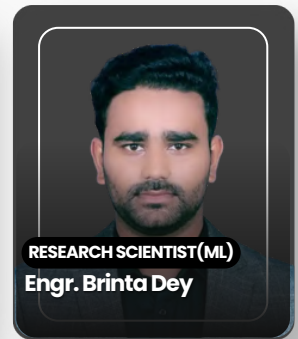

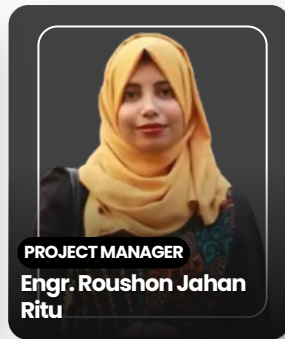

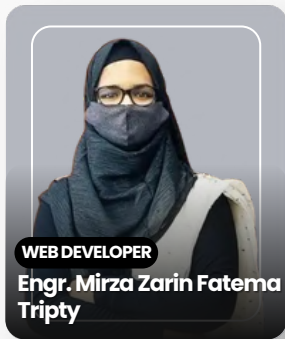

Research is a strange journey. You start with a question that keeps you awake at night and end up in places you never planned to visit. At Softsasi this journey has been even more unusual. Ideas grow here in ways that feel alive and every experiment has the chance to spark something unexpected.

Working in Softsasi means accepting that curiosity is stronger than comfort. Some days lead to breakthroughs, some days lead to puzzles, and some days simply teach patience. Yet all of it builds toward a future where our tools think smarter, our systems adapt faster, and our creations help real people.

As we celebrate our fourth anniversary, I am proud to be part of a team that treats exploration as its core strength. The unknown ahead excites us, and we will continue to push boundaries and create what has not been imagined yet. Thank you for being part of this path of discovery.

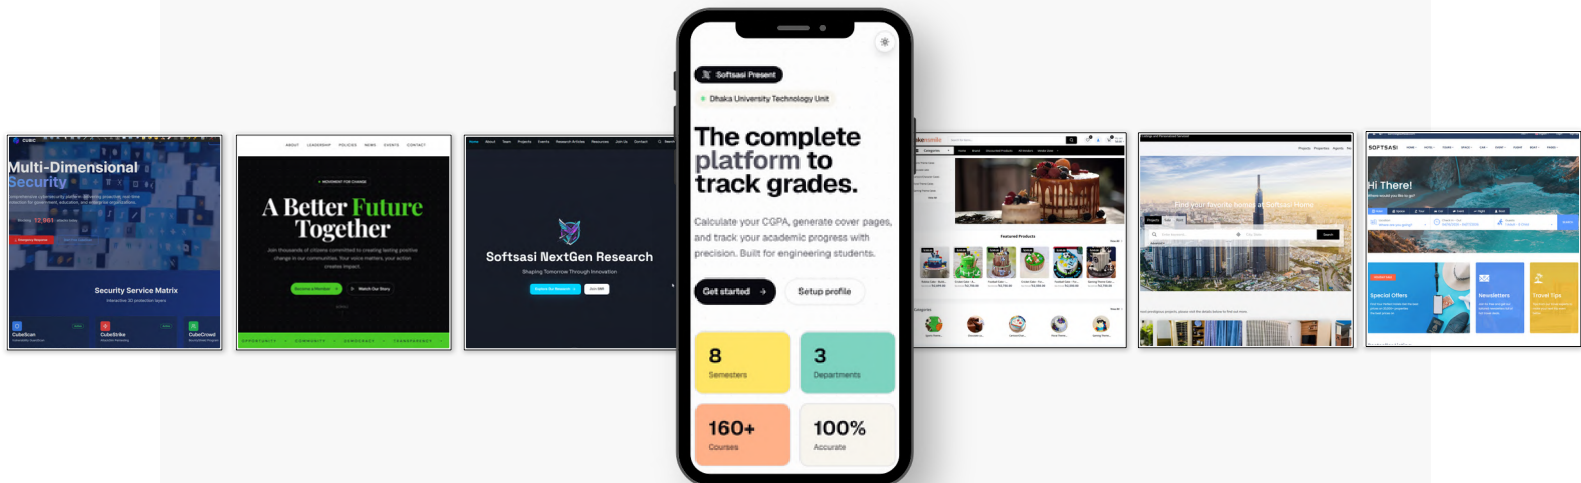

— Engr. Fazle Rabbi Bindu
Managing Director, Softsasi

SOFTSASI FAMILY

WEBSITE & APPLICATION DEVELOPMENT

-  **CUSTOM WEB & APP DEVELOPMENT**
-  **CROSS-PLATFORM DEVELOPMENT (ANDROID/IOS/WINDOWS/LINUX)**
-  **WE CREATE E-COMMERCE STORES IN 2 DAYS**
-  **WE BUILD ERP SYSTEMS FOR SMES IN BANGLADESH**
-  **REAL ESTATE PORTALS & BOOKING SYSTEMS**
-  **SCHOOL, LIBRARY & NEWSPAPER PLATFORMS**

TECH STACK

-  **Typescript**
-  **NODE.JS**
-  **Tailwind CSS**
-  **Flutter**
-  **Firebase**

SINGLE & MULTIVENDOR E-COMMERCE SITE

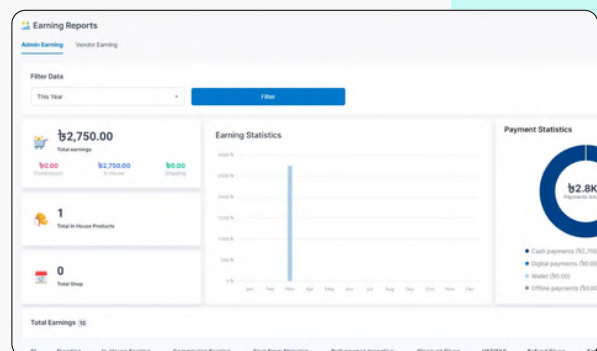

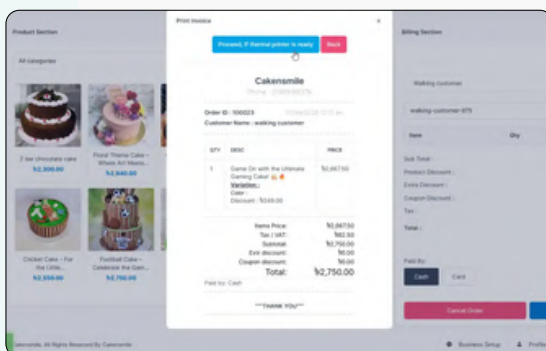

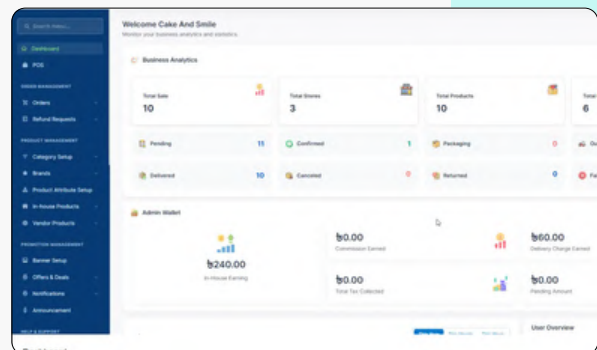

- **Complete E-commerce System:** Full marketplace like Daraz/Amazon with product listing, cart, and checkout
- **Order & Delivery Management:** Handle shipping rules, orders, and delivery tracking
- **User Authentication:** Secure login, registration, and account management
- **Admin Panel:** Manage products, users, orders, and overall operations
- **Multi-Vendor Support:** Allow multiple sellers to manage and sell products
- **Payment Integration Ready:** Support local gateways like bKash, Nagad, and others
- **Fully Responsive Design:** Optimized for mobile, tablet, and desktop
- **Ready-to-Use Platform:** Launch an online business quickly with a complete system

Admin Panel

- Mobile Friendly Dashboard
- Product Management (Add/Edit)
- Category & Banner Control
- Purchase History Tracking
- Fake Customer Detection
- Dedicated Customer Panel
- Discount & Coupons

Website Features

- Free 1 Year Domain & Hosting (T&C apply)
- Mobile, Tab & Desktop Responsive
- Product Listing & Search
- Shopping Cart & Checkout
- Payment Gateway Integrated
- Social Chat (Inbuild/WhatsApp)
- Auto Invoice Generation

ERP SYSTEM

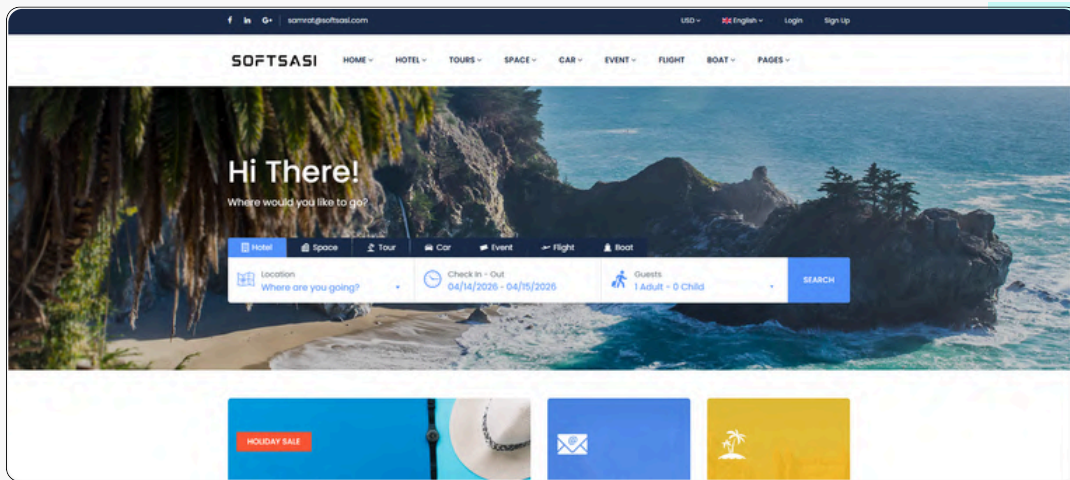

- **Complete ERP System:** Integrate sales, HR, accounting, CRM, and operations in one platform
- **Employee Management:** Handle attendance, payroll, and performance tracking
- **Accounting & Finance:** Automate invoicing, payments, and financial reports
- **Sales & CRM:** Manage customers and improve retention
- **Inventory Management:** Track stock and manage business products efficiently
- **POS System:** Fast and reliable billing for retail and shops
- **Business Analytics:** Make better decisions with reports and insights
- **All-in-One Solution:** Manage and scale your business digitally from a single dashboard

Booking

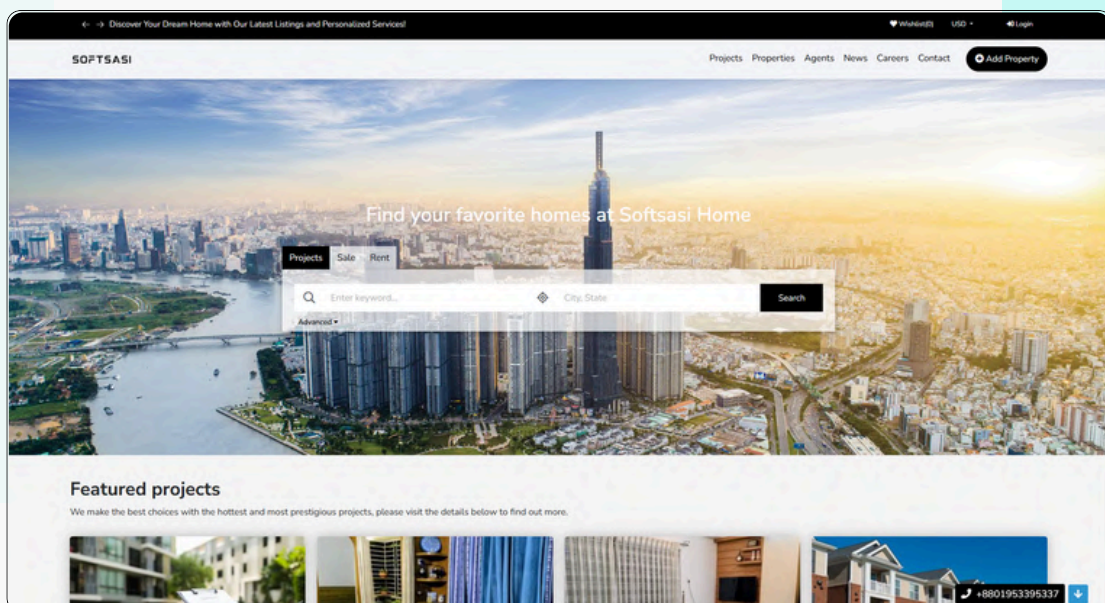

- **Complete Booking System:** Manage appointments, services, and reservations with real-time scheduling
- **User Booking & Notifications:** Customers can book, track history, and receive automated alerts
- **Payments & Custom Controls:** Support secure payments with flexible pricing and booking rules
- **All-in-One Solution:** Automate and simplify your entire booking operations

REAL ESTATE

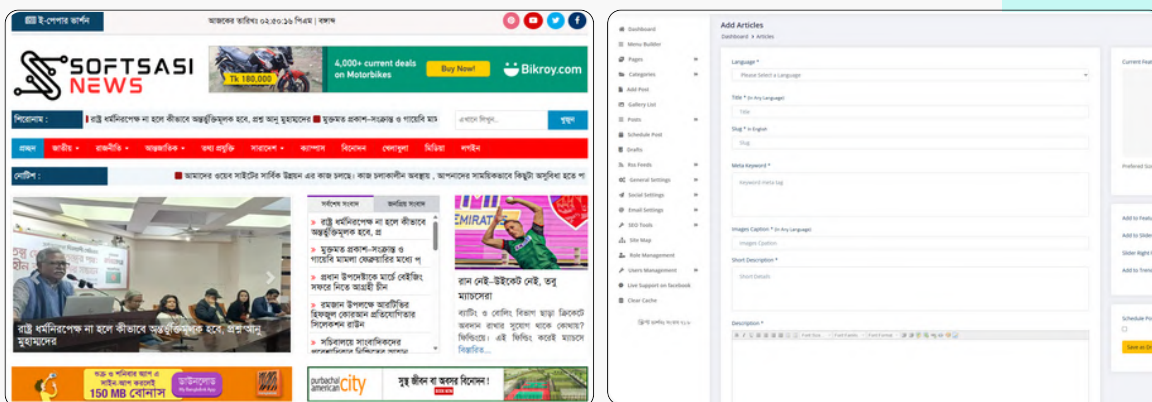

- **Complete Real Estate Management System:** Manage buying, selling, projects, and overall property operations
- **Listings & CRM Management:** Handle property listings, pricing, availability, and convert leads into customers
- **Finance & Transactions:** Manage units, invoicing, payments, and accounting in one system
- **Customer Portal & Insights:** Enable booking, tracking, automation, and access analytics from any device

NEWSPAPER

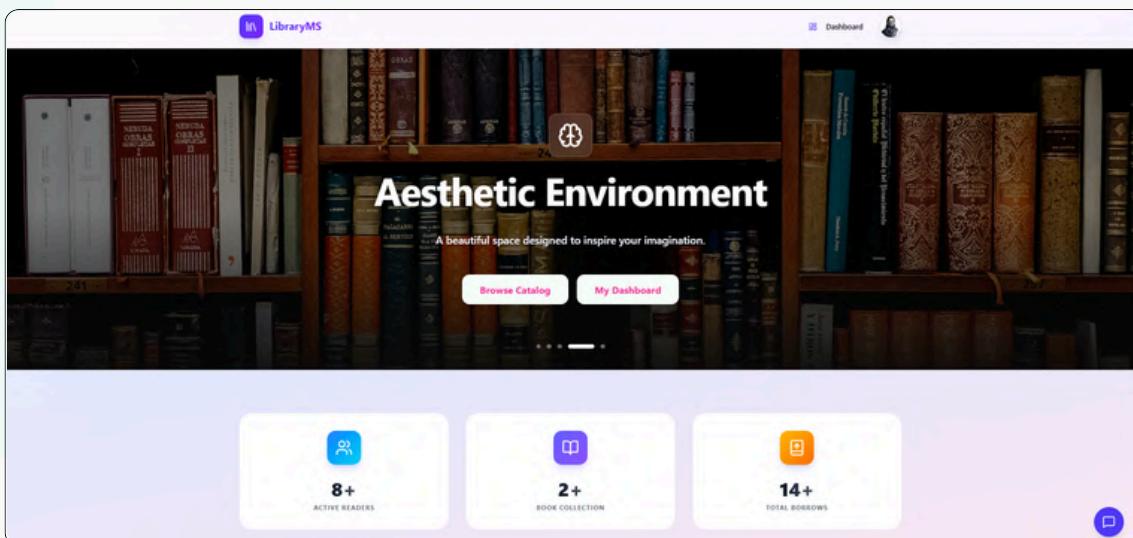

- **Complete News Portal CMS:** Manage and publish news content easily
- **Reporter Panel:** Journalists can write, edit, and manage articles
- **Breaking News System:** Real-time updates with live news ticker
- **Ad Monetization Ready:** Earn revenue through ads like AdSense
- **SEO Optimization:** Improve ranking and visibility on search engines
- **Ready-to-Launch Solution:** Instantly start your online newspaper or magazine

School & Library Management System

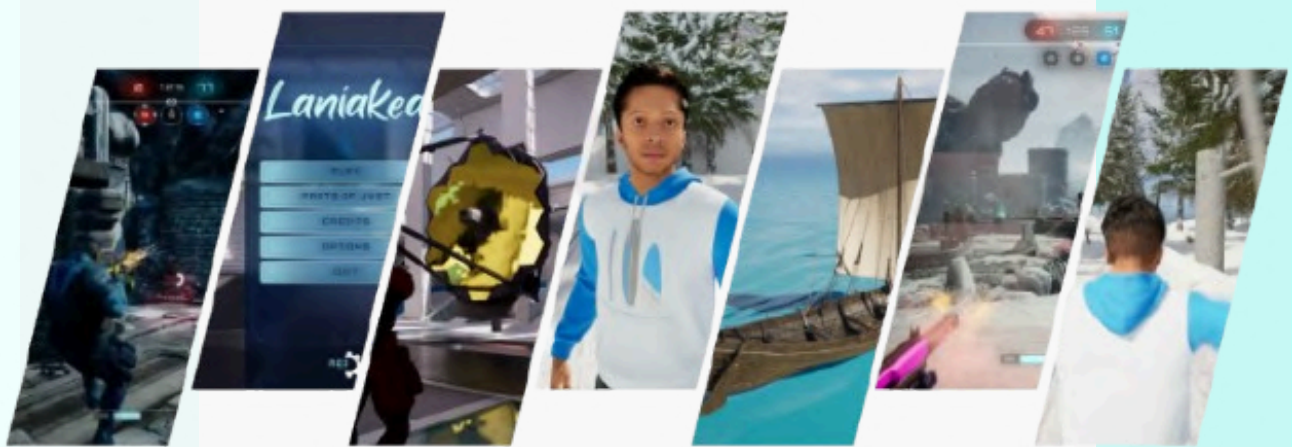

- **Complete Library Management System:** Manage books, users, and overall library operations
- **Smart Catalog & Circulation:** Search books and handle issue, return, and renewals efficiently
- **User & Inventory Management:** Track members, borrowing history, and book availability
- **Fines, Reports & Online Access:** Manage penalties, view analytics, and access resources anytime

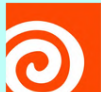

GAME DEVELOPMENT

Axel (Shooter)

- **3D Multiplayer Shooter Game:** Built using Unreal Engine 5 with immersive gameplay and Nanite, Lumen, Chaos, and MetaHuman features.
- **Cross-Platform Support:** Playable on Windows, Mac, Linux, Android, iOS, and web
- **Realistic Graphics & Visuals:** High-quality environments with cinematic experience
- **Multiplayer Experience:** Compete with players online in real-time battles
- **Dynamic Gameplay Modes:** Multiple maps, weapons, and character options
- **Optimized Performance:** Smooth gameplay across different devices and platforms

Shipwreck

- **Pirate Naval Combat Game:** Engage in intense sea battles, defending your ship against enemy pirates
- **Cannon & Artillery Warfare:** Use powerful cannons and enhanced weapons for strategic combat
- **Action & Strategy Gameplay:** Fight waves of enemies with skill and tactical decision-making
- **Optimized & Scalable Experience:** Smooth gameplay with advanced features for high-end devices

Sky Math Quest

- **Educational Flight Game:** Control a plane while solving math challenges in an engaging sky-based adventure
- **Interactive Math Gameplay:** Answer dynamic trivia questions to progress and increase your score
- **Simple & Addictive Controls:** Easy tap-to-fly mechanics suitable for players of all ages
- **Fun Learning Experience:** Combines colorful visuals, scoring system, and endless challenges to improve math skills

Null Void

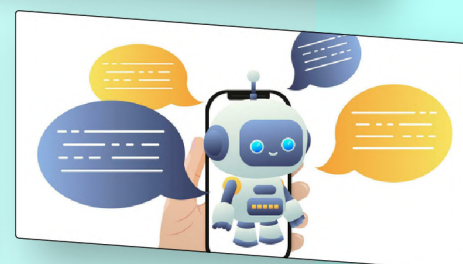

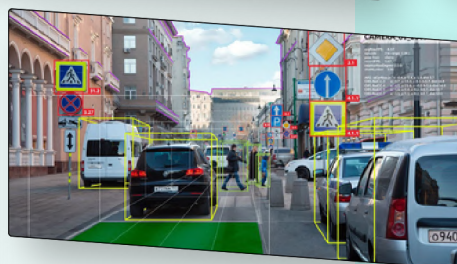

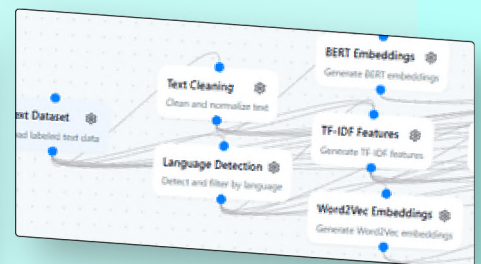

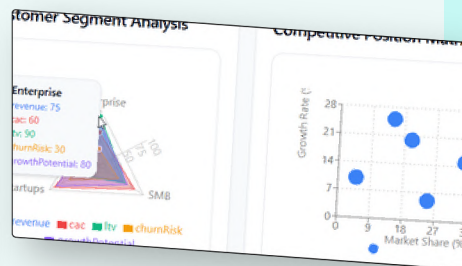

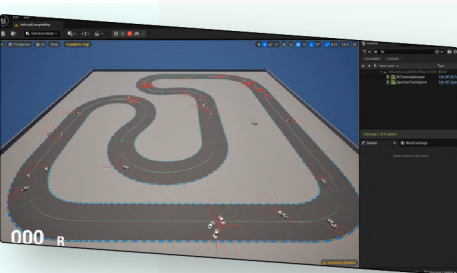

- **Third-Person Platformer Game:** Navigate a mysterious and dangerous void with skill-based gameplay
- **Unreal Engine 5 Powered:** Built using UE5, Blueprint, and C++ for high-quality visuals and performance
- **Challenging & Immersive Experience:** Engaging levels, obstacles, and storyline that test player dexterity
- **Student Innovation Project:** Developed as a team project showcasing real-world game development skills

AI & ML DEVELOPMENT

-  **NATURAL LANGUAGE PROCESSING**
-  **WE BUILD AI AUTOMATION TOOLS FOR BUSINESSES**

ClimaXplore

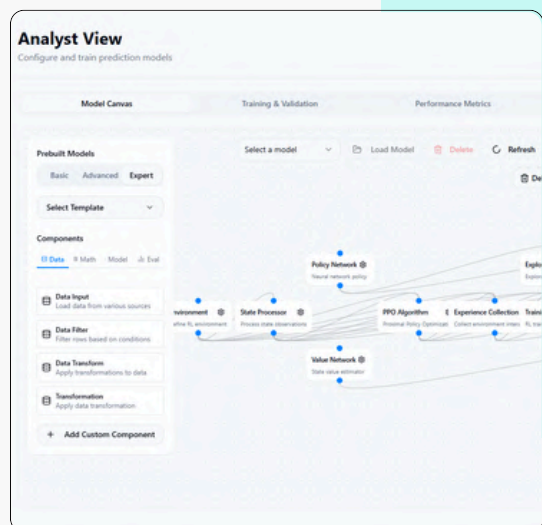

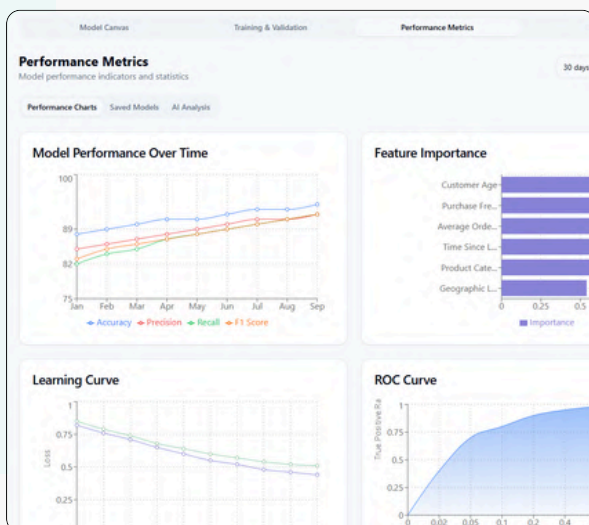

- **AI Weather Intelligence System:** Get real-time weather insights with AI-powered forecasting
- **Smart Data Analysis:** Uses live meteorological data for accurate conditions and predictions
- **Interactive Dashboard:** Explore weather trends with a simple and user-friendly interface
- **Web-Based & Scalable:** Fast, location-based system accessible from any device without installation

InsightFlow

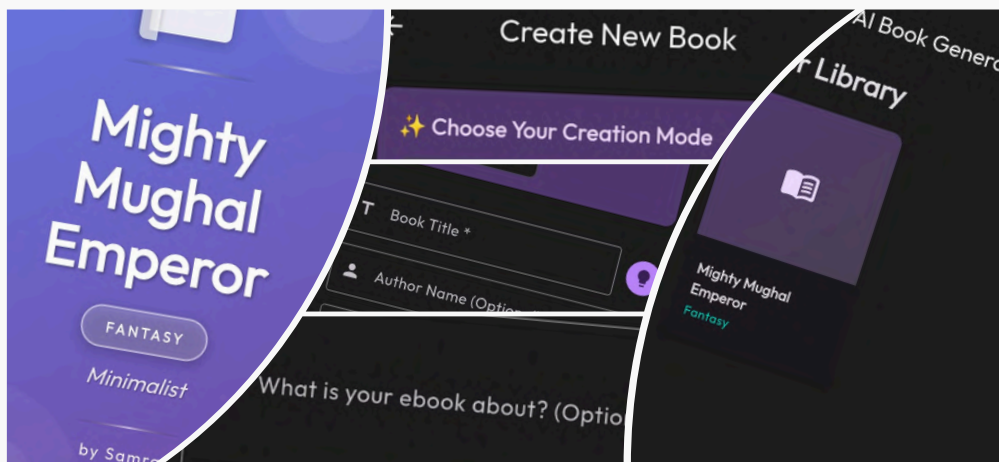

- **AI Decision Support System:** Simplify complex business decisions using intelligent analysis
- **Scenario Simulation & Comparison:** Test outcomes and compare multiple strategies before choosing
- **Data-Driven Insights:** Leverage analytics and predictive models for smarter decision-making
- **Web-Based Smart Platform:** Interactive, user-friendly system for planning, forecasting, and optimization

BookAI

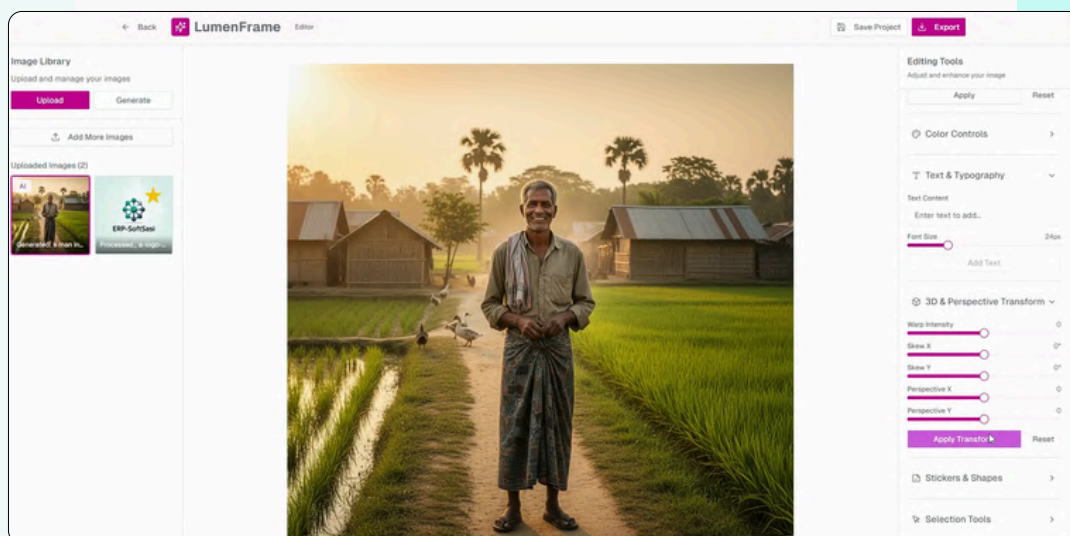

- **AI Book Generation System:** Create complete books from simple topic inputs using advanced AI
- **Smart Content Creation:** Automatically generates titles, chapters, and structured multi-chapter content
- **Flexible Generation Modes:** Supports step-by-step editing or one-click full book creation
- **Export & User-Friendly Interface:** Easy browser-based UI with options to export books in multiple formats

LumenFrame

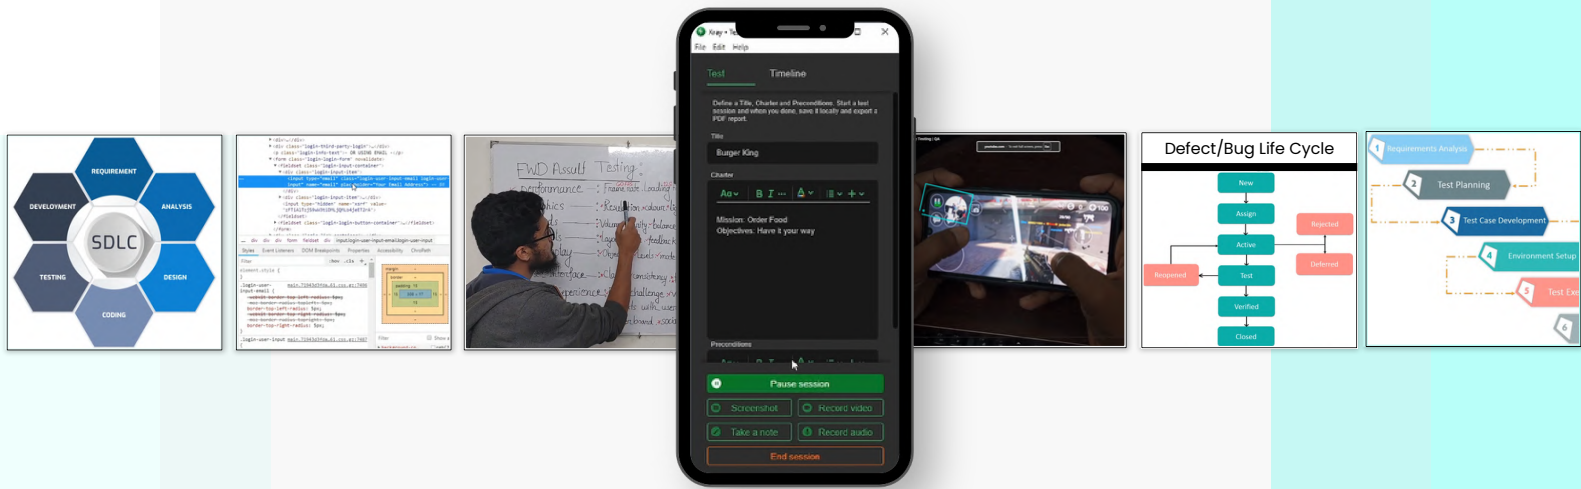

- **AI Photo Editing Platform:** Edit images using simple natural language commands
- **Smart Image Transformation:** AI enhances, modifies, and transforms photos automatically
- **Chat-Based Editing Experience:** Describe edits instead of using complex manual tools
- **Web-Based & User-Friendly:** No installation needed with fast, intuitive browser interface

QA & TESTING SOLUTIONS

-  **Full-Cycle QA on Web, App & Game:** End-to-end quality assurance process
-  **Automated Testing:** Fast and scalable testing using modern tools
-  **API & Backend Testing:** Ensure system reliability and performance
-  **Performance Testing:** Load and stress testing for stability
-  **Security Testing:** Identify vulnerabilities and protect systems
-  **User Acceptance Testing (UAT):** Validate with real user scenarios

QA & TESTING CASE STUDY

Exploratory Testing & Quality Analysis for Forward Assault

At Softsasi, we perform in-depth Quality Assurance and Exploratory Testing to identify critical issues, improve performance, and enhance player experience.

In this case study, our QA team conducted a **detailed 51-point exploratory testing** review of Forward Assault, a popular multiplayer FPS game with over **10M+ downloads**. It was an **official paid testing service** request for **Blaze Games LLC**.

Project Objective

Our goal was to evaluate the game’s quality across multiple technical and user-focused areas, identify deal-breaking issues, and provide actionable recommendations for improvement.

Testing Areas Covered

- ✓ Performance Testing
- ✓ Graphics & Visual Quality Review
- ✓ Sound & Audio Testing
- ✓ UI/UX Evaluation
- ✓ Controls & Accessibility Testing
- ✓ Gameplay Testing
- ✓ AI Behavior Analysis
- ✓ User Experience Review

Performance Results

- ✓ Stable 60 FPS performance
- ✓ 12-second loading time
- ✓ Low battery usage (280mAh/hour)
- ✓ Efficient RAM usage (1GB-1.1GB)
- ✓ Stable network performance
- ✓ No crashes during testing

Outcome (Our Rating: 6/10)

Our QA report provided actionable insights to improve:

- player retention
- visual quality
- competitive fairness
- long-term engagement
- overall user satisfaction

Key Findings

Our testing identified **19 improvement points**, including **2 major deal-breakers**:

1. Graphics & Visual Quality Issues

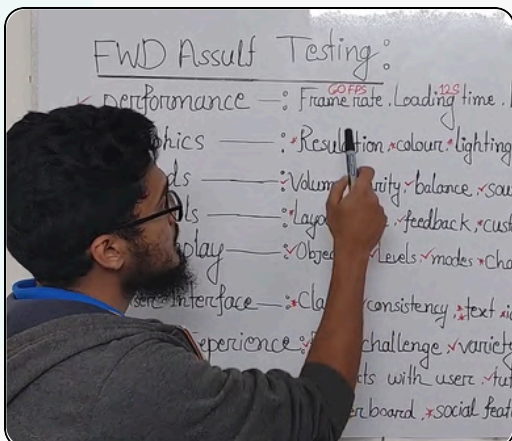

- lighting and shadow realism issues
- texture sharpness / anti-aliasing problems
- lack of animation and effects variation
- missing Field of View customization

2. User Interface Issues

- outdated layout design
- overlapping text and icons
- poor visual hierarchy
- missing close/cross buttons on dialogs

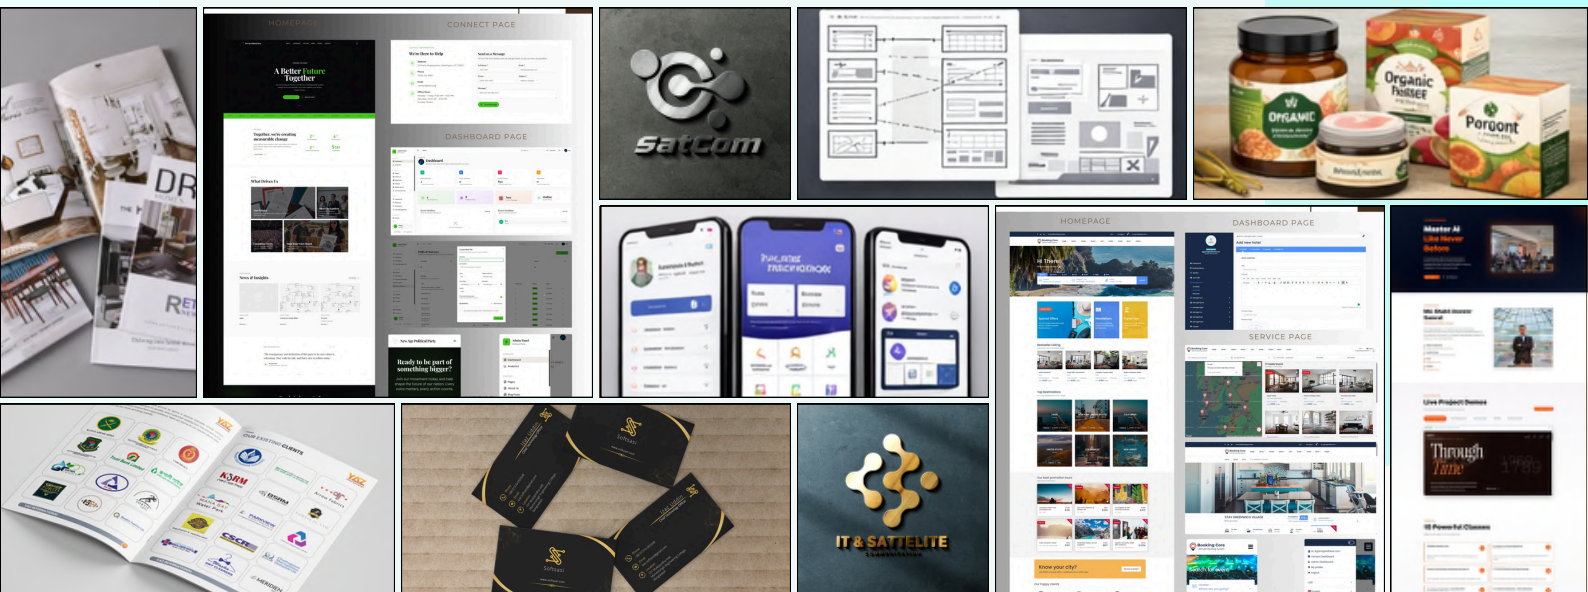

Additional Issues Found

- sound clarity and glitch noise issues
- missing voice set options
- limited control customization
- gameplay balancing issues
- AI respawn predictability
- infected mode instant-kill exploit
- lack of social features
- no achievement motivation system
- missing kill-cam / replay feature
- no offline story mode(feature)

UI/UX DESIGN & CREATIVE GRAPHICS

-  UI & UX DESIGN
-  SOCIAL MEDIA DESIGNS
-  MARKETING & PROMOTION
-  BUSINESS & OFFICE
-  EVENTS & INVITATIONS
-  PRINT, EDUCATIONAL & PERSONAL

TECH STACK

-  AFFINITY
-  FIGMA
-  ADOBE
-  WPS OFFICE
-  CANVA

Mobile App Design & Website UI & Landing Pages

- **Social Media Design** : Used for branding and marketing with consistent visuals and promotional content.
- **Website UI & Landing Pages** : Designed to attract users with clear structure, features, and call-to-action elements.
- **Wireframing & Prototyping** : Blueprint and interactive model to visualize design before development.
- **User Experience (UX)** : Ensures smooth user flow and better understanding of structure and interaction.

Branding Identity

- **Logos & Brand Identity** : Visual representation using logo, colors, and typography to build a professional brand.
- **Business Cards & Resumes** : Clean designs to present contact and personal information professionally.
- **Professional Presentations** : Structured slides with charts and visuals for meetings and proposals.
- **Business Communication** : Strong design improves clarity and overall professionalism.

DEVELOPMENT TIMELINE

A JOURNEY OF RESILIENCE AND CONTINUOUS INNOVATION

- 2022: Inception and Architectural Foundation**

The organization was officially founded in January 2022. This initial year was characterized by intense R&D with near-zero viable revenue. The engineering team focused heavily on conceptualizing the modular architecture for Agami OS and develop Axel game.
- 2023: Validation and Market Recognition**

Gained critical global validation through triumphant involvement with the NASA Space Apps Challenge. Successfully prototyped the first modules of the Softsasi ERP system. Annual revenue achieved steady initial growth.
- 2024: Product Expansion and IP Generation**

Transitioned aggressively into high-fidelity interactive media, initiating the development of the Shipwreck and Math Flight game utilizing Unreal Engine 5. Officially launched proprietary artificial intelligence tools and secured major enterprise partnerships, achieving sustainable operational profitability.
- 2025: Ecosystem Leadership and SaaS Scaling**

Recognized globally by Tech Behemoths. Co-organized the DevSphere Hackathon to recruit regional engineering talent. The Softsasi ERP platform matured into a flagship revenue driver, facilitating massive YoY growth in recurring subscription revenue.
- 2026: Global Scaling & Enterprise Dominance**

Rolling out the robust Agami OS to educational institutions and scaling our AI-driven decision-support systems globally. Projected to surpass all previous revenue records by capitalizing on the domestic digital export market and expanding to NA and MENA regions.

VISION

Softsasi doesn't chase trends; we plant seeds. Technology is not just a tool but a companion that sparks ideas and moves communities.

We believe tech should feel simple and human. From AI to ERP, from classrooms to code labs, we create with curiosity and purpose.

Softsasi is a space for bold ideas and creative minds. We build the future, one idea at a time.

MISSION

01. We solve problems that matter.

Every project starts with a real-world challenge. Businesses face management issues, students lack resources, and communities need better access to information. We build ERP, e-commerce, attendance, billing, and edtech solutions that turn these challenges into practical, intelligent, and accessible systems.

02. We build technology that moves forward, not sideways.

Every project begins with a real-world challenge. Businesses struggle with management, students lack resources, and communities need better information. We build ERP, e-commerce, attendance, billing, and edtech solutions that turn these challenges into practical, intelligent, and accessible systems.

03. Building a Secure Digital Future with Cubicsec

Security is a core mission for us. In a world of growing cyber threats, digital trust is essential. Cubicsec protects systems, data, and users through vulnerability analysis, threat monitoring, and secure design. Its mission is to ensure innovation never compromises safety, making every Softsasi solution stronger, more reliable, and ready for global standards.

04. Clear Goals for a Clear Path.

To strengthen this mission, we invest in web and game development. Softsasi builds fast, modern websites and immersive Unreal Engine experiences, blending creativity, engineering, and storytelling. Our goal is to refine our craft so every product reflects innovation, stability, and personality, bringing us closer to our long-term vision.

MARKET SIZE

CAPITALIZING ON THE GLOBAL DIGITAL TRANSFORMATION WAVE

We operate within a rapidly expanding and highly lucrative macroeconomic environment. The global pivot toward robust digital infrastructure, coupled with the emergence of Bangladesh as a formidable software engineering powerhouse, presents an extraordinary market opportunity for our enterprise software, artificial intelligence, and gaming divisions.

TOTAL ADDRESSABLE MARKET

\$12.79 B Nationally & **\$300B+** Globally

The Domestic ICT Market: Driven by comprehensive government digitization initiatives, rapid cloud adoption, and a booming SME sector. Projected to reach \$12.79 billion by 2031 at a CAGR of 6.26%.

SERVICEABLE AVAILABLE MARKET

\$350 M Nationally & **\$150B** Globally

Enterprise Software & ERP Segment: The specific market for ERP solutions, custom software, and AI automation within our immediate regional targets. Expanding at a highly accelerated 12-15% CAGR.

SERVICEABLE OBTAINABLE MARKET

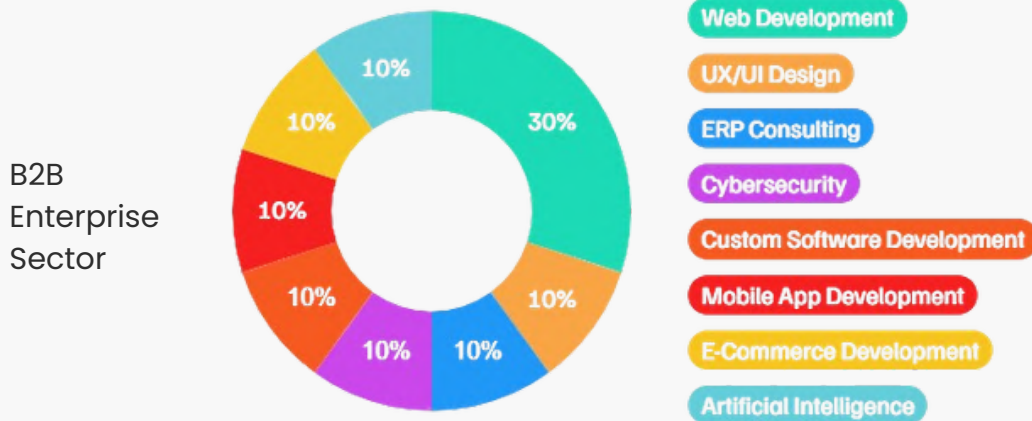

\$24 M

Our Targeted Acquisition Share: The realistic, data-backed revenue share we aim to capture over the next 5-year cycle by targeting mid-market enterprises with AI-integrated ERP and high-fidelity gaming titles.

TARGET MARKET

PRECISION ENGINEERING FOR DIVERSE GLOBAL SECTORS

Our diversified product portfolio allows us to capture significant value across multiple distinct audience segments. Our strategy is deliberately bifurcated into B2B enterprise solutions and B2C digital entertainment, ensuring highly resilient revenue streams.

65%

B2B Enterprise Sector

The majority of our engineering resources are dedicated to solving complex operational bottlenecks for enterprise clients.

- ▶ **Retail & E-commerce:** Robust POS architectures and automated inventory management for high-volume transactions.
- ▶ **Manufacturing & Corporate:** Comprehensive ERP for seamless HR, accounting, and predictive supply chain management.
- ▶ **Education & Public Sector:** Secure, cost-effective institutional infrastructure powered by Agami Operating System.

35%

B2C Consumer & Gaming Sector

Our interactive media division focuses on capturing attention in the highly lucrative global digital entertainment market.

- ▶ **Core Global Gamers:** Enthusiasts of high-fidelity multiplayer experiences targeted by advanced Unreal Engine 5 titles like 'Axel'.
- ▶ **EdTech Consumers:** Students engaging with gamified learning platforms (e.g., Sky Math Quest) that blend curricula with addictive mechanics.

COMPANY TRACTION

ERP, E-Commerce, Business Solution 150+ Enterprise Deployments	Custom Service 115+ Delivered Client Projects	Gaming Division 1000+ Active Global Players

PERFORMANCE OVERVIEW

(Independent Source)

Global Position by Verified Clients

- Rated 4.3/5 on Trustpilot
- Rated 5/5 on Clutch
- Rated 5/5 on Tech Behemoths

PROFILE STRENGTH: EXCELLENT

0 1 2 3 4 5 6 7 8

TOP! **Softsasi** is one of those reputable companies that have a strong profile on TechBehemoths. Based on their experience, client references, testimonials, portfolio, you can rely on their competence. You can confidently contact them and send your project inquiry. Softsasi is ranked in the top 40% among all 43,000+ IT companies on the platform.

How Softsasi compares to other companies based on profile strength?

● In Bangladesh ○ In Kushtia

See how **Softsasi** is positioned among 728 companies from **Bangladesh** based on profile strength. An **excellent** rate means that you can trust this company and initiate successful partnerships.

How many services does Softsasi provide compared to other companies?

● In Bangladesh ○ In Kushtia

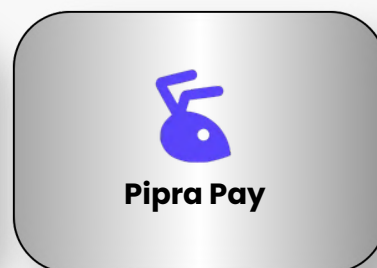

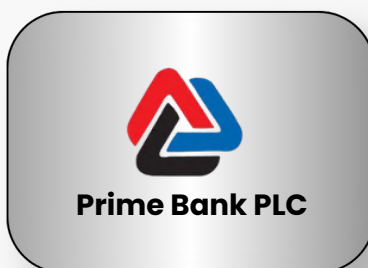

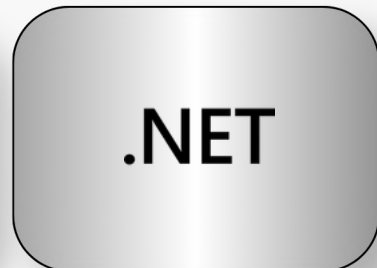

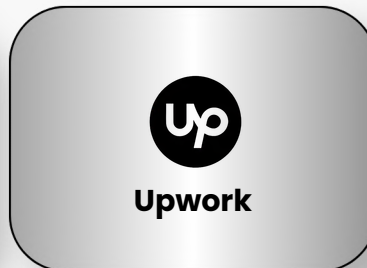

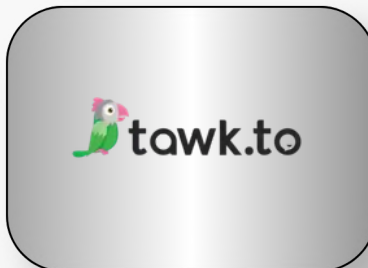

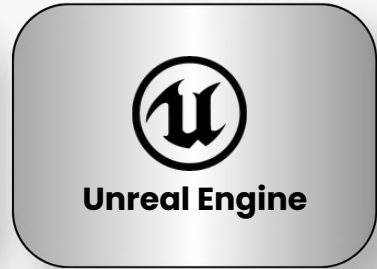

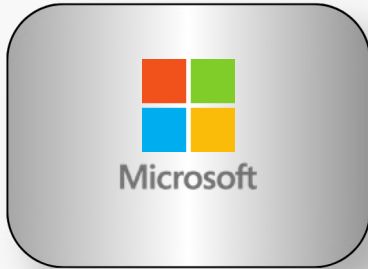

Softsasi covers 46 services in their current region or area. This means that the company offers a **high** range of services compared to their competitors. That's great, but do your due diligence before. Too many services are also tricky. It might be that the company is a superstar indeed, but at the same time, they could be overwhelmed with just a little of everything.

How much does Softsasi charge for their services compared to other companies in Bangladesh and Kushtia?

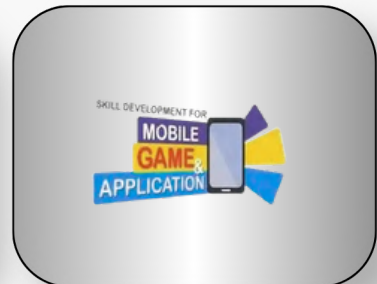

● In Bangladesh ○ In Kushtia

Softsasi charges between **\$30 - 70/hour**, meaning that the cost of their services in **Bangladesh** is **below average**. This is perhaps a sweet spot. A well-optimized cost structure. It could definitely be a win in the end, but don't forget about your due diligence before hiring..

EXISTING CLIENT BASE

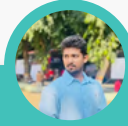

CLIENT REVIEWS

Muize Mubasshir
Founder & CEO , IKRAM
★★★★★

"Great experience working with them! They built my website and managed the marketing just the way I wanted. Everything was simple, fast, and on point. Definitely recommend!"

Lian Mollick
Operations Manager, Urban Gaz Ltd
★★★★★

"Softsasi ERP transformed our workflow. Tasks that took hours now take minutes, dashboards give clear insights, and it fits our business perfectly. We can't imagine operating without it."

MD Shakil Rana
ML Engineer, KodeEnd IT Solutions AB
★★★★★

"We had a tight deadline to launch our online store, and Softsasi delivered on time. The system is scalable and clean, and they were open to feedback throughout the process. It felt like working with a real product team, not just developers."

Syed Talha Alam
Founder & CEO, PG Group
★★★★★

"Excellent freelancer! thoughtful and thorough! will hire again!"

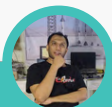

Ibne Masud Rana Pervez
Senior Deputy Assistant Director, Walton
★★★★★

Coming from a development background, I usually look beyond just UI and focus on architecture, scalability, and code quality. Softsasi's multi-vendor e-commerce system impressed me in that regard.

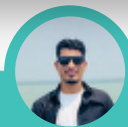

Niloy Ashrafi
Operations Manager, Ovijat
★★★★★

"Helped me a lot with my virtual assistant projects. They are not a big name yet but have the potentials surely. Hope you guys rock it!"

Nahiyan AL Rahman Oli
Founder & CEO, DhumketuX
★★★★★

"Congratulations my pride Visionary Shakil Anower Samrat... I'm impressed by his technical skills and creative approach."

Shikder AI Islam
CEO, Softbeez
★★★★★

"SoftSasi's innovative team has impressed us with their game development and digital solutions expertise. They consistently deliver exceptional results, showcasing their dedication and skill. We look forward to future collaborations and innovations with them."

Tabib Khan
CEO, Softneed IT Limited
★★★★★

"Softsasi's commitment to quality sets them apart-expect reliable, top-notch software and games. Their focus on user experience ensures intuitive and accessible products for diverse audiences."

CLIENT REVIEWS

Md. Jannatul Nayem
Verification Engineer, Tecknoz

"Always at the bleeding edge"

Tasfique Haque Nafew
Social worker and organizer, RRD

I sincerely express my heartfelt thanks and appreciation to the Softsasi team for professionally developing and continuously improving my personal website. From the beginning, they have not only built a website but have worked to transform my vision, activities, and humanitarian efforts into a strong and impactful digital platform..... Thank you all. 🙏

Tarikul Islam Bhuyen
Manager, Matrix BD Technologies

As a service-based company, we needed more than just a typical online store. Softsasi built an e-commerce solution that fits our workflow, allowing us to manage service listings, bookings, and payments in one place. The system is clean, easy to use, and works well for both our team and our customers.

"They prioritize user-centric development, ensuring intuitive and user-friendly products.."

OUR ACHIEVEMENTS

Champion-NASA Space Apps Challenge 2022

Finalist- National STEAM Olympiad 2024

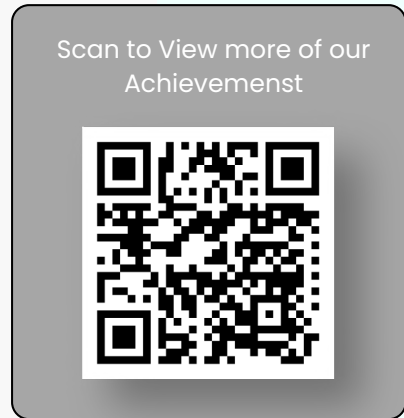

Champion-National Mobile App Game & Job Festival 2023

Finalist- Code Samurai 2022

1st Runner Up - National Science Fest 2023

NASA SPACE APPS CHALLENGE 2022-25

06 October, 2025

Global Hackathon on Space Science & Innovation

This achievement builds on Softsasi's legacy in the competition. In **2022**, **Softsasi**, under the team name **Redshift**, earned the **Champion** title in the Mymensingh regional round with Project **Laniakea**.

Softsasi proudly continued its innovation journey at the **NASA Space Apps Challenge 2025**, securing the **1st Runner-up** title in the regional round with **ClimaXplore**, an **AI-powered weather intelligence system** designed to deliver smart forecasting and real-time climate insights.

Proud Moment

The project highlighted **Softsasi's** expertise in **artificial intelligence**, **data analysis**, and practical innovation using real-world open data.

Softsasi also played an inspiring role in encouraging innovation and participation within the **local tech community**.

Milestone

The event became a historic success for **Mymensingh Engineering College**, with **two teams** winning the **Champion** title and securing **1st Runner-up** in the regional round.

During the **NASA Space Apps Challenge 2025**, **Md. Shakil Anower Samrat**, **Convener of the BSFMEC Chapter** and **CEO of Softsasi**, had the honor of presenting a **recognition award** to **Mr. Abul Khair Mohammad Hafizullah Khan**, **Joint Secretary of the Local Government Division**, for his outstanding contribution and continuous support to the **NASA Space Apps Challenge – Bangladesh** as the **BASIS Administrator**.

DEVSPHERE HACKATHON 2025

06 February, 2025

Global Hackathon on Space Science & Innovation

The **DevSphere Hackathon 2025 Season 1** marked one of the most remarkable milestones for Softsasi. Held on February 6, 2025, the event was organized by **Softsasi, Alpha Science Laboratory, FlexSoft, and Softbeez**, with full support from the chapter.

With an impressive participation of **23 teams**, the hackathon brought together passionate developers, designers, and innovators to create impactful software and game development projects. The event served as a dynamic platform for students to showcase their technical creativity, teamwork, and problem-solving skills.

Mentorship & Networking

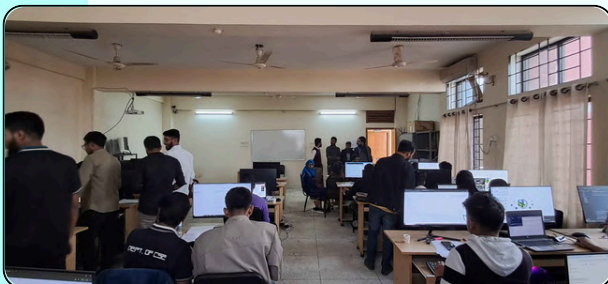

Participants gain access to mentors, industry experts, and fellow developers, fostering collaboration and learning.

Skill Development & Recognition

Encourages hands-on experience in coding, design, and teamwork. It also offers a platform for students to showcase their creativity and technical prowess.

Community Impact

Strengthens the local tech ecosystem by connecting students with real-world challenges and opportunities.

- Softsasi helps MEC students to engage in global innovation

CLOSING MESSAGE

Trust is the foundation of every successful technology partnership. At Softsasi, we are committed to ensuring every solution we build is secure, reliable, and designed for long-term success.

Security is not just about protecting systems. It is about protecting ideas, operations, and the confidence our clients place in us. As we continue to grow, we remain dedicated to maintaining strong foundations while building innovative solutions for the future.

We look forward to building impactful and secure solutions together

— Engr. Izaz Uddin Mahmud
Chief Security Officer, CubicSec, Softsasi

UPDATE

THANK YOU

Thanks for exploring Softsasi.
Where ideas turn into impactful digital experiences.

Let's build something meaningful for you:

- ✓ **ERP systems** for your **business**
- ✓ **E-commerce** platforms in **days**
- ✓ **Multiplayer game** development
- ✓ **AI-powered automation** solutions

Let's Build Something **Fantastic** Together!
